

## Advance Ship Notice (ASN) and License Plate Number labels (LPN) Questionnaire

**All information below is required and will be used to communicate and coordinate testing and training**

Provide the following for each ship point:

Warehouse Name <small>Example below: (Sysco Corporation) Please Provide Legal Name-75 Character Limit</small>	Physical Address <small>Example below: (1390 Enclave Parkway, Houston, TX 77077) 75 Character Limit</small>	Contact Information <small>Example below: (Name, Phone #, &amp; Email) (John Doe, 123-456-7890, doe.john@global.com) 75 Character Limit</small>	3PL* Y/N	P (Portal)* ----- I (Integration)*
			**	**
			**	**
			**	**

\*3PL-Third party location, cross-docks

\*Portal-iTradeNetwork's Website

\*Integration-Supplier backend system

### Item Testing Information:

It is essential that the template below be filled out in its entirety so that ITN can establish your test catalog. **(minimum of 4 items)**

This information will be used in your ASN/LPN certification.

SUPC-15 Character Limit	Description- 55 Character Limit	MPC-14 Character Limit	GTIN-14Character Limit

**Notes:**

- The test and production catalogs are not associated formats. Each Supplier is responsible for building and synchronizing their catalog.
- Before the PO cut date, verify that all of the catalog items for the RDC are updated with the correct MPC, Brand, Packaging, Size, TI/HI, and Weights.

Provide your unique UCC Manufacturer ID (UPC Company Prefix)–

**Do not use 074865, 078982, and 734730 as these are unique to Sysco only.**

If you are uncertain of your unique UCC Manufacturer ID please go to the following link: <http://www.gs1us.org>

UCC ID: \_\_\_\_\_

- LOT# and Date of Manufacture (DOM) or Date of Expiration(DOE) – Required

Select Method of Communication:  Julian     Gregorian     other \_\_\_\_\_

**Note:**

For additional ASN/LPN requirements please see <http://www.sysco.com/supplier/esupplier.html>

### Integrated Suppliers only:

UPC, GTIN and Net Weight for 2 or more items are required for testing, if catch weight items are applicable to the RDC.

You will need to provide the information below on your 856 ASN/LPN integrated document. If **unable** to provide please check box.
